

Update September 2017

In wageningen is al een paar jaar een SCHEMATHEEK actief die de beschikking heeft over 10.000 schema's en service-manuals van zowel amateurapparatuur als ook van antennes, oscilloscopes, trx'N EN VOEDINGEN.

Ook is de inhoudsopgave te vinden OP DE OP GEVEN INTERNET ADRES.

De activiteiten zijn niet verenigings-gebonden en de beheerder heeft zich ten doel gesteld om alle documentatie tegen copieerkosten aan de electronica-amateurs ter beschikking te stellen.

Het adres van de SCHEMATHEEK is:

**T.Hultermans, PDOMHS, OOSTSTEEG 3, 6708AN
WAGENINGEN.**

Daar de SCHEMATHEEK op NON-profit basis is bestaat er geen werkkapitaal waarom bij elke aanvraag een gefrankeerde retour-enveloppe (en/of voor buiten Nederland ,,n IRC) nodig is om antwoord te krijgen.

EN DIT GELD NIET VOOR AANVRAGEN VIA INTERNET

En indien er niet tussen staat van wat je zoekt stuur me dan toch maar een mailtje want ik beschik nog over zo'n 1TB aan digitale schema's op mijn HD.

Und wen da nichts zwischen steht was Sie suchen zenden Sie mich ein mail so das ich Sie kan informieren uber 1 TB digitalen schalbilder auf mein rechner

Au cas où l'option de votre choix n'y figure pas, prière de me le signaler par messagerie électronique(e-mail). La version 1TB est toujours disponible.

**If you cannot find what you're looking for, please send me an email j
